

CONTEST RULES

Situm Developers Awards 2018

Introduction

SITUM TECHNOLOGIES S.L., in collaboration with the Galician Agency of Innovation, organizes the first edition of "Situm Developers Awards 2018".

The bases must be accepted and complied.

1. Objective

Present a development of an initial version, or a PMV (Minimum Viable Product), of any system developed with Situm's indoor geopositioning tools.

2. Categories

- Mobile application, using Situm's SDK of iOS, Android and / or Cordova
- Web tool for analyzing or displaying data of indoor geopositioning, using Situm's APIs

3. Evaluation

Situm's development team will test and evaluate each mobile application and web tool, taking into account the following criteria:

- Originality of the idea.
- Quality of the code.
- Documentation of the code.
- Operation documentation: what does it do?
- Use of Situm's resources for development, at least one SDK or API.
- Use of other software services further than the minimum necessities for a web application or service.

4. Participants

Any person with legal age can participate.

Participation can be individual or in a team, with a maximum of 4 participants by team.

5. Participation procedure

To register for the contest you must send an email to the following address:

innovation@situm.es

In this email you must send your development of one or more of the following modalities:

- **Android mobile application:** Link to the downloadable application on Google Play, or APK
- **iOS mobile application, if you have an Apple developer account:** Link to the downloadable application on App Store, or invitation to TestFlight to test the beta
- **iOS mobile application, if you do NOT have an Apple developer account:** Source code and a detailed description of the XCode version and all the necessary steps to simulate the application from XCode
- **Cordova mobile application:** Link to the downloadable application on Google Play and / or App Store, APK and / or invitation to TestFlight to test the beta on iOS
- **Web:** Link to the tool and test credentials if authentication is required. If you do not have a place to hang your tool, you can use services such as Heroku (<http://www.heroku.com><https://www.heroku.com>) or any other hosting service.

In any of the options, you must include a link to a repository where our team can review the source code. An example of a repository is GitHub (<https://github.com>).

In this email you must also send the following information of the participants, and in the case of teams, the information of each member:

- Name and surnames
- DNI
- Contact email
- Qualification or studies in progress
- Short description of your application or tool: what does it do? Why did you get the idea?
- Short personal description: tell us something about yourself. Do you like technology? Do you have professional experience? Do you have a hobby? What do you like the most?

6. Prize

A single prize will be given in each category, consisting of an Apple Watch Series 4, or several devices worth € 500 in case of teams (the type and model of the devices will be agreed with the winners).

7. Phases of the contest

1. Reception of candidatures: until 12/15/2018

2. Evaluation by the development team of Situm: until 15/01/2019. During the evaluation phase, the developer who is testing or evaluating the code may contact the participant (s) to clarify any questions. To do this, he will use the contact email indicated by the competitor.

3. Notification of winners: once the evaluation is finished, the winners will be notified by email.

4. Publication of results: the list of winners and a summary of the project will be published on the blog of <https://situm.es/es/blog> as well as spread through social networks.

5. Publication of source code: by mutual agreement, the source code of the winning projects could be published in a public repository, for example GitHub.

6. Award ceremony: A date to collect the prize at Situm's offices in Santiago de Compostela will be agreed by email with the winners. Second and third in each category will be invited to visit Situm's offices to meet the founders and the development team, and to see how the work is in a technology company.

8. Transfer and authorization of rights

The acceptance of the prize implies the authorization in favor of SITUM TECHNOLOGIES S.L. to make use of the name and image of the winners in all those activities that it organizes in relation to the prizes for informational purpose, without any right for winners or participant to receive payment or any consideration.

Anyway, the intellectual property rights belong to the authors who have participated in the presented development. The company does not reserve any exploitation rights over the candidacies. The purpose of the contest is merely promotional and informative

9. Consent and data protection

The data of the participants and the winners of the prize will be treated in accordance with the corresponding data protection and privacy laws.

SITUM TECHNOLOGIES S.L. will collect personal data of the participants and winners of the prize in order to manage their participation, evaluate their work and be able to formalize the the prize giving. Once the contest is finished, SITUM TECHNOLOGIES S.L. will proceed to the destruction of the personal data collected.

10. Disclaimer

All expenses incurred by the participant due to the development of his candidacy will be exclusively for his account. On the other hand, if the realization of the candidacies involves the processing of permissions or authorizations of any kind, private or public, these will be managed exclusively by the participants and only the participants will assume the responsibilities

derived from their request and obtaining, as the case may be, from these permits and / or authorizations, in front of the persons or authorities that grant them.

SITUM TECHNOLOGIES S.L. is not responsible for the consequences, accidents, incidents and / or sequels that may suffer participants or third parties in the course of this contest.

SITUM TECHNOLOGIES S.L. is exonerated, not being liable, with respect to the breach of the participants of any guarantee in the matter of intellectual, industrial or image rights, as well as of any responsibility that could derive from the breach or defective fulfillment by the participants in the contest of the present bases.

Also, SITUM TECHNOLOGIES S.L. shall be exempt from any obligation or compensation to participants, if due to force majeure or legal imperative this promotion should be canceled or suspended, circumstance to which sufficient publicity will be given.
